

## INDORSEMENT IS GIVEN FULL TIME SECRETARY PLAN

New System of Management for Chamber of Commerce Approved at Regular Meeting.

### INCOME MUST BE INCREASED

Sustaining Membership to Pay from \$250 Downward Per Year Will Provide Necessary Fund.

### ANNUAL DUES TO BE BOOSTED

Resolution Introduced to Change Constitution Fixing Amount at \$12 Per Annum.

Unanimous indorsement of the plan to employ a full time secretary for the Chamber of Commerce as the first step towards a constructive program of activity to make Seymour a "Bigger and Better City," was given by the members attending the regular monthly meeting at the city building Tuesday night. The proposition is proposed with the view of placing the work of the Chamber on a systematic, business-like basis that some of the projects which have been offered and are now open may materialize.

The matter was brought before the body by C. D. Billings at the suggestion of John A. Shields, the president. Mr. Billings presented a resolution adopted by the directors recommending the employment of a full time secretary and a plan to raise \$3,000 annually by a sustaining membership. Following the second to the motion that the recommendation be adopted, a long discussion ensued in which practically every member expressed the belief that the full time secretary plan would help to overcome most of the municipal ills.

Mr. Billings explained the proposition at some length. He said that the directors were of the opinion that the Chamber of Commerce could not accomplish the work expected of it unless a trained manager were placed in charge. He said that in the past citizens have been elected to various offices and whatever work was accomplished was done at the expense of the time of the individuals.

The money necessary to pay the salary of the secretary and of meeting other expenses which would be incurred will come from a sustaining membership. Mr. Billings said that the directors thought that quite a few firms and individuals would be willing to contribute as much as \$250 a year for a period of three years to put the plan in operation. Others will give \$200 and amounts ranging downward for the same period of time. He explained that the details of the plan would have to be worked out later and the purpose of the recommendation was to ascertain whether or not the members of the organization approved it.

Jay C. Smith approved the recommendation and said that for a long time he had thought that a full time secretary was essential to the welfare of the Chamber of Commerce and the city. No business, he said, can be conducted successfully without a trained man in charge of it. Churches, he pointed out, must have ministers to direct the work; schools and other institutions must have managers. The management of a city corporation, he said, also required the full time of a director.

E. M. Edgar said that he was in favor of the plan and thought it would result in great good for the city. "When one is sick," he said, "one goes to a doctor. No one hunts with a witch doctor any more. What we need here is a trained physician to look after the ills of Seymour."

W. L. Johnson indorsed the plan and declared that he did not anticipate that any trouble would be encountered in raising the necessary money.

C. H. Wiethoff in approving the

plan said he would give \$50 a year if twenty-five other merchants would match his \$50.

Others who spoke in favor of the plan were I. L. Frost, G. F. Kamman, Dr. L. B. Hill, James Demas, Clifford Jackson, W. L. Federmann and Thomas A. Mott.

Clark B. Davis, secretary, said that it was his opinion that considerably more money than \$3,000 a year would be necessary to put the plan in operation successfully. He said the secretaries in other cities were receiving large salaries and that if the plan is carried out people will be called upon to contribute more time than ever before to Chamber of Commerce work. He urged closer co-operation and said after all that was what made an organization a successful one.

Mr. Shields closed the discussion with an explanation of why he advocated the full time secretary.

"Many people have told me that I would 'get my foot into it' for advocating such a plan," he said. "I have been told that I was foolish for undertaking it. Many people have told me that they thought such a plan was highly advantageous, they did not think it could be put across. I undertook the plan, because I thought it was what Seymour needed most at this time. What this organization needs is leadership. The crying need now is to get a leader and a leader in whom we have confidence."

He explained that the details of the plan must be left to the directors and that many points would arise before the undertaking was completed.

The matter of increasing the annual dues to \$12 a year was discussed at some length and action was taken to change the constitution so that amount would be charged instead of \$6 per annum, beginning September 1.

The directors of the Chamber of Commerce are now facing considerable work in connection with the new plan, but the members have confidence that the program will be carried out. Further reports are to be made from time to time as the details develop.

## NEW ASSESSMENT FORMS ARE ISSUED

Proposed Blanks Would Require Additional Information From Property Owners.

### SOME QUESTIONS THE SAME

Schedule Includes Items as to The Amount of Fire Insurance Carried on Property.

A new form of schedule for assessment of personal property has been compiled by the state board of tax commissioners and if it is retained property owners will be required to answer some additional questions relative to their holdings.

Along with the new personal schedule blanks, a new form of a book to be used by the assessor in making returns and figuring the totals will be used, together with a lot of new forms for submission of facts to the state board.

But the personal property schedule is the one that attracts attention. The schedule is designed to check up the statements of the taxpayer. There will be no way under the new blank to put in your personal property at \$50 or \$100 and get away with it without showing the assessor.

In the matter of household goods, the new schedule provides for the listing of every item of household furniture and the establishing of a value on each item. In the past the taxpayers merely put in household furniture at a lump sum. This will not be the case in the future. The personal property list includes everything, and the old order of placing household goods on the tax assessment sheet in a lump sum passes out of existence with this new form.

Another new question the holder is called upon to answer is regarding the amount of fire insurance carried on the household furniture listed in the assessment sheet.

## WARNING GIVEN TO POOL ROOM OWNERS

Mayor Burkart Tells Proprietors Minors Must Not be Permitted to Enter Places.

### QUOTES THE INDIANA LAW

Chief of Police Abell Instructed to Visit Rooms and See That The Law is Enforced.

Pool room owners who permit minors to play or even enter their places of business will be prosecuted.

This was the warning that was given by Mayor C. W. Burkart to the six pool room proprietors who were called to his office at the city building this morning. Mayor Burkart told the proprietors that he had received a number of complaints during the last few weeks that minors were permitted to frequent pool rooms and that he wanted to give them fair warning that hereafter the law is to be enforced to the letter. Some of the city administrations, Mayor Burkart said, had permitted boys over sixteen years of age to enter pool rooms, but stated that the Indiana law was very specific that minors must not be permitted to enter pool rooms. He said he was charged with enforcing the law, rather than to judge whether or not it was too strict.

Mayor Burkart instructed Chief Abell to visit the pool rooms in the city at least once each day and ascertain if minors are permitted to play. Chief Abell said he would carry out the instructions of the Mayor to the letter and warned the proprietors that arrests would follow violations.

In the enforcement of the law several complications arise. One pool room manager said that he had on file instructions from some parents stating that they did not object to their sons playing pool. Another said that several of his customers frequently were accompanied by their sons and that the latter would watch the games in which their fathers participated. Mayor Burkart said that parents cannot give any proprietor permission to violate the law and that boys under 21 years are not permitted to enter pool rooms with their fathers.

The law provides for two offenses, one for permitting a minor to play and the other for permitting a minor to enter a pool room. Penalty of not more than \$50 and not less than \$5 is provided in the act.

## MORE ENGINEERS ON THIS DIVISION

Additional Work Devolves Upon Local Baltimore & Ohio Staff as Result of Reorganization.

### RETURN TO FORMER SYSTEM

In Future Each Division of System Will Have Charge of Its Own Field Surveying.

As a result of a reorganization of the engineering department of the maintenance of ways department of the Baltimore & Ohio railroad system, a number of additional engineers will soon be assigned to the local staff of which C. E. Herth is chief. The reorganization affects only the method of operation, it is stated. In the future each division of the western lines of the system will look after its own field surveying and mapping, whereas for several years this work has been done under the supervision of the engineer of maintenance ways out of Cincinnati.

Mr. Herth stated this morning that the staff on the Indiana division would include five engineers. C. E. Newhouse, of this city, is assistant division engineer. The other four engineers will also live here. Two have already been added to the staff and the other two will be employed as soon as the work in the spring opens up.

The engineering organization begins with the chief engineer of maintenance of ways with offices in Baltimore. When the government took over the control of the railroads the eastern lines and the western lines were divided so far as operation was concerned, and the engineer over this division had offices in Cincinnati. Recently the two main divisions were merged as formerly and the chief engineer was returned to Baltimore.

The engineer of maintenance of ways has offices in Cincinnati and reports to him are the division engineers. In the past field surveys have been recommended by the division engineer and he would send out the surveyors to do the actual work with the co-operation of the division engineer.

Under the new system, the field work will be made under the personal supervision of the division engineer. This means increased responsibilities for Mr. Herth and the engineers of his staff.

Mr. Herth said that one of the improvements already decided upon for this spring was the rebuilding of the Baltimore & Ohio bridge at the Medora pump house. The trestle work will be removed and a bridge on concrete piers will be constructed. It is expected that this work will be started as soon in the spring as the weather will permit.

### ALLEGED THIEF SHOT BY RAILROAD DETECTIVE

Frank Townsend, of Richmond Fatally Wounded in Gun Battle in Greensburg.

By United Press  
Greensburg, February 4—Frank Townsend, twenty-eight, of Richmond, Ind., was dead and Harry Yozell, eighteen, of Hamilton, O., was under arrest today following a gun battle in the Big Four railroad station late last night with Sam Linzille, sergeant of Four Four detectives. Linzille shot Townsend to death and Yozell was arrested early today. The shooting followed a struggle in the station in which the detective fought the two men in trying to prevent Townsend shooting him.

Linzille looking through a window of the station saw the men counting money and handing jewelry on a station seat with a few purses lying about. He finally succeeded in forcing the door. A pistol battle followed, during which a bullet from Linzille's gun struck Townsend in the head, killing him.

Yozell ran from the station but was caught later. Earlier in the night the home of Harry Hamilton, a farmer, living near here, was looted of \$5,000 worth of Liberty bonds and jewelry. Authorities are of the opinion that the two committed the robbery and that Yozell hid the bonds when he foresaw capture.

### IMPORTANT CONFERENCE OF PROTESTANT CLERGY

Railroad Fare of Local Ministers to be Paid to Indianapolis March 1-3.

The attention of the Protestant clergy of Jackson county is called to an important conference to be held in Tomlinson hall, Indianapolis, March 1, 2, 3. Invitations have been sent out to 2700 ministers in the state and the attendance promises to surpass anything ever attempted in Indiana before.

This conference is a part of the national plan whereby all the clergy of the nation will come together to discuss interchurch affairs. Within a month and a half every state will be visited by one of the ten teams leaving headquarters for this purpose. The Ministerial Association in Indianapolis yesterday decided to ask each of the denominations to provide living accommodations for the pastors of its own denomination at the time of the conference. Three members from each of the denominations have therefore been appointed to carry out this plan and to correspond with its ministers throughout the state urging them to attend the conference.

Deputation groups in about fifteen centers in the state will be established in advance of the conference to interest and urge a large attendance at the Indianapolis conference. Rev. F. A. Hayward, county supervisor and convenor, will be glad to be of assistance to any who may be interested and urges that Jackson county be 100 percent efficient in attendance. Every church should ask why its pastor does not attend and if he cannot afford to go for any reason should finance and plan his church affairs so he may be released for these three important days.

## LEHSNER REFUSES TO TRANSMIT LIST

Returns Note and Names of German War Guilty to French Foreign Office.

### RESIGNATION IS SUBMITTED

Allies Think Procedure is Followed Without Instructions From Germany.

By United Press

Paris, February 4—Baron Kurt Von Lersner of the German delegation here, refused today to transmit to Berlin the allied list of persons guilty of war crimes and the accompanying note.

He turned the list and note back to the French foreign office and notified it of his resignation as president of the German peace delegation. Following Von Lersner's action, the French foreign office stated it regarded his procedure as purely a personal affair and expressed the belief that it was not the result of instructions from Berlin. It was further stated the allies have other means of transmitting the list and the note to Berlin.

The note was presented to Von Lersner late yesterday with the list of accused Germans, including many of her most prominent generals. It followed receipt of a note from Berlin asking modification of the clause in the peace treaty demanding surrender of the German war guilty on grounds that their surrender would cause an internal crisis, possibly endangering the government.

## RAIL LEGISLATION NEAR SETTLEMENT

House and Senate Conferees Discuss Provision of Esch and Cummins Bills.

### TWO POINTS IN DISPUTE

Matter of Rate May Be Left to Interstate Commerce Body—A Labor Tribunal.

By United Press  
Washington, Feb. 4—Agreement on railroad legislation may be reached today by house and senate conferees on the Esch and Cummins bills.

Two points remained unsettled when the discussions were resumed today. One was whether the law shall prescribe the rate deemed adequate to insure railroad owners a certain definite financial return when the lines are handed back to them or whether the interstate commerce commission shall be allowed to fix the rates. The other was whether the law shall set up a labor tribunal to adjust strikes and other disputes between workers and management.

There would be no anti-strike legislation in the bill as reported from conference, according to present indications.

In general, conferees said today, the measure that comes from conference will recognize long established theories of railroad legislation rather than new ideas. It will make the function of the interstate commerce commission more important than at present. Because of the added responsibility and work which the measure will give the commission an increase in membership from nine to eleven is to be provided for.

Nearly four times as many farmers demand a two year extension of federal railroad control as oppose it, George P. Hampton, managing director of the farmers' national council, stated today in a letter sent to Vice President Marshall, Speaker Gillett and chairmen of the senate and house interstate commerce committees. Hampton challenges statements by representatives of the national grange, the national farmers union and the farmers bureau who declare farmers want immediate return of the roads.

merit. No worth while movement has ever suffered for want of funds. The public is ready and willing to co-operate in aiding Seymour. But the trouble in the past has been the absence of leadership. Seymour has been without an organized program. In flowery speeches of oratory scores of great factories have been located here; improvements have been completed and the city's population has been boosted many times its present size. The intent was splendid and the spirit was commendable, but the trouble has been that there was no one to take hold of the visions in a practical way and bring it into material form.

The time for visionary speeches has gone. If Seymour is ever to accomplish any of the big things we have hoped for we must get busy now. Tomorrow may be too late. And in the use of the word "we" reference is made to every citizen in Seymour. Constructive criticism is needed and is necessary, but those who criticize ought to be just as willing to co-operate. Too much co-operation is preferable to too much "constructive" criticism.

If we are ever to get our visions into material form we must have some one in charge of the Chamber of Commerce, whose business will be to manage the system. A decided step in that direction was taken last night when the membership approved a recommendation of the board of directors for the employment of a full time secretary. The matter rests now with the directors and there is every assurance that they will not let the proposition die. The full time secretary will cost money, but no corporation can be managed without

the expenditure of money. Under the new plan citizens will be called upon to work harder than ever for the welfare of Seymour, but they will gladly do this as they will be laboring for the accomplishment of something definite. Their objective will be before them.

Many details of the plan are to be worked out. We are only beginning the undertaking. The possibilities are large. But we should bear in mind that if Seymour is to make anything out of itself we must all get in the harness and be ready to pull together.

## SIX MONTHS I COULD NOT WORK

Lydia E. Pinkham's Vegetable Compound Made Me Strong and Able to Work—I Recommend It To All My Friends.

Bayonne, N. J.—"I had pains in back and legs so that I could not stand caused by female trouble. I felt so tired all the time, had bad headaches, and for six months I could not work. I was treated by a physician and took other remedies but got no relief. A friend told me about Lydia E. Pinkham's Vegetable Compound and it has helped me very much. I am well and strong and now able to do my work. I cannot thank you enough and I recommend your medicine to my friends who are sick."—Mrs. SUSIE SACATANSKY, 25 East 17th St., Bayonne, N. J.

It must be admitted by every fair-minded, intelligent person, that a medicine could not live and grow in popularity for over forty years, and today hold a record for such wonderful success as does Lydia E. Pinkham's Vegetable Compound, without possessing great virtue and actual worth. Such medicines must be looked upon and termed both standard and dependable by every thinking person.

## SWITCH OFF!

Put aside the Salts, Oil, Calomel, or Pills and take "Cascarets."

Are you keeping your bowels, liver, and stomach clean, pure, and fresh with Cascarets, or merely whipping them into action every few days with Salts, Cathartic Pills, Oil, or Purgative Waters?  
Stop having a bowel wash-day. Let Cascarets gently cleanse and regulate the stomach, remove the sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the colon and bowels all the constipated waste matter and poisons so you can straighten up.  
Cascarets tonight will make you feel great by morning. They work while you sleep—never gripe, sicken, or cause any inconvenience, and cost so little too.

February third, at the home of Mr. and Mrs. Alex W. Benham, Crothersville, when their daughter, Miss Dora Annice, became the bride of David Waters Lewis, son of Mr. and Mrs. James W. Lewis.

The Benham home was attractively decorated with banks of greenery, the color scheme of pink and white being carried out as the bridal colors. The double ring ceremony was read by Rev. R. L. Bostie of Crothersville, in the presence of the immediate family and a few intimate friends. Lohengrin's Wedding March was played by Miss Katherine Love, of Indianapolis. During the ceremony she played softly "Love's Old Sweet Song" and "Believe Me If All Those Endearing Young Charms."

The bride wore an attractive traveling suit with accessories to match, wearing a corsage bouquet. Miss Nora Lewis, of Indianapolis, a sister of the groom, was matron of honor. After the ceremony an informal reception was held and refreshments of rose shaped cream and cake were served. Mr. and Mrs. Lewis left immediately afterwards for their future home in Indianapolis and will be at home to their friends after February fifteenth at 4215 Guilford Avenue.

The out-of-town guests present were Mr. and Mrs. J. W. Benham of Salem, Miss Katherine Love and Miss Nora Lewis, of Indianapolis.

Both the bride and groom are well known in this city, the bride having attended the local high school for several years. The groom is employed as a field expert with the Case Threshing Machine Company with headquarters in Indianapolis.

# Equip Your Small Car With Goodyear Tires

If you own a Ford, Chevrolet, Dort, Maxwell or any other car using 30x3-, 30x3½-, or 31x4-inch tires, you can well take advantage of the high relative value built into all Goodyear Tires.

You can well do so because you can secure in the small Goodyear Tires the results of such skill and care as have made Goodyear Tires the preferred equipment on the highest-priced automobiles of the day.

You can well do so because these small Goodyear Tires are easy to obtain, being produced at the rate of 20,000 a day, and because their first cost usually is as low or lower than that of other tires in the same types and sizes.

Go to the nearest Goodyear Service Station Dealer for these tires, and for Goodyear Heavy Tourist Tubes. He supplies many other local owners of small cars.

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread \$20.00  
30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread \$17.65

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size in water-proof bag \$3.90

## URGES PEOPLE TO FIGHT CATARRH WITH SIMPLE HOME MADE REMEDY

Can Make Pint at Home and Costs Little, Says Leading Druggist of Covington, Ky., Who Has Made Special Study of Catarrh.

### Says: Inflamed Nostrils Invite Influenza

People who say that catarrh is a disease not to be taken seriously are harshly rebuked by a Kentucky druggist who has for years been much interested in the growth of this loathsome, yet altogether too common disease.

He claims that the sore, tender, inflamed membrane of the nostrils and throat is a prolific breeding ground for germs—not only the germs of influenza, but many other kinds as well.

If people would only stop experimenting for two weeks and try a simple remedy made of Mentholized Arcline mixed with enough boiled water to make a full pint, half of the catarrh in this country would be abolished. It's really no joke for people

## FOUNDRY WISHES TO LOCATE IN SEYMOUR

Proposed That Stock Be Sold to Local People—Proposal is Being Investigated.

C. D. Billings, chairman of the industries committee of the Chamber of Commerce, reported at the meeting last night that two men, experienced in iron work, desired to establish a factory here. He said that the matter had been brought to his attention by a promoter who is employed by the two men to find a location. It is proposed that stock to the amount of about \$20,000 be sold to local people. The men who are back of the proposition said they have the experience, but were without funds to build and equip the factory.

The proposition was referred to the industries committee for further investigation. It was explained that a number of factories have been started here in former years by selling stock to local people and that

few of them have remained in operation long. Members of the organization expressed doubt as to whether local people could be induced to make such an investment, especially since the promoters were not investing themselves.

WHO DO YOU WANT FOR GOVERNOR?

WARREN T. MCCRAY  
Kentland, Ind.

Candidate for Republican Nomination for Governor.

Today there is industrial unrest and radicalism in the Nation!  
Today there is political unrest in the State!

What we need is GOOD SOUND AMERICAN JUDGMENT in all affairs, particularly in the conduct of governmental affairs. Fewer agitators, fewer politicians—more plain people close to the heart of Indiana, close to the soil of Indiana—leaders, wise with the knowledge of human interests and human needs.

Think of these things when you choose your nominee for Governor! Remember, he is a candidate who can bring to the administration of public affairs that *sane balance* so needed today. He is an experienced business man, a successful farmer, and live-stock breeder—an efficient American citizen.

WE NEED HIS KIND IN OFFICE. We need the efficiency, the honesty and the success in public business that he has evidenced in private business.

We need a man, free from entangling alliances. We need a man like Warren T. McCray who represents no faction and no group of special interests. He is the logical candidate for the practical people of the State.

Most of all, we need an executive who combines the broad vision of a patriot and fearless exponent of moral issues with the ability and energy of business capacity and civic responsibility.

Warren T. McCray is all this and more—he is a REAL MAN, standing four-square to the world; a real friend, responsive and understanding of human needs; a real leader who is fair to all elements, and commands the confidence of the public.

Holworthy Hall

Hilliard gestulated broadly.

"Why, as a matter of fact, we don't care very much if we don't! That's the commoner method, and that's the way to get our money back almost at once, and then play on velvet. But if instead of working through brokers, we were willing to tie up our capital a little longer, we'd make considerably more money in the long run, as you can plainly see. We'd advance our hundred and twenty thousand dollars, wait until dividends could be declared, and then get the stock listed on the curb and begin to feed it out to the public through a fiscal agency. There'd be twice as much in it for us, but we wouldn't be in that perfectly delightful position of owning a lot of valuable stock which literally hadn't cost us anything. Or, of course, we could offer some of the shares to our personal friends at a fair price, and reimburse ourselves that way. Knowing that it's worth ten or fifteen, we wouldn't feel

very guilty about selling it to personal acquaintances at eight or nine, would we? Why not—when we know for a certainty that it ought to go up to fifteen? They'd bless us for it!"

"But the main point; the staggering thing about it, is—"

"Is that if the public gets ten or fifteen per cent dividends," said Hilliard, "or buys at ten and sells a few dollars higher, it thinks it's lucky; and in the meantime, the underwriters make anything up to a thousand per cent, and get it in a few months. And I've known some of these syndicates to turn over in a few days."

"Oh, I want to do it!" said Angela ecstatically. "I want to do it! Dad! Let's be a syndicate and go out to Montana until it's over! Come on! Let's!" Hilliard laughed cheerfully at her.

"In this particular case," he said, "the syndicate's about half formed. Nothing final, but it's pending. And it is good—so good that I doubt if any layman could break into it with a cold chisel." Again, he excused himself on the ground of salesman's license. "But that's the fundamental, Mr. Cullen—that's how the thing is done, and that's how the public carries the whole burden of financing, and doesn't know it."

He assumed an attitude of easy unconcern. Angela, her breath coming rapidly, was regarding him with awe-struck eyes. Mr. Cullen, his mouth drawn to a perfectly straight line, was gazing spellbound at the orderly array of figures on the envelope.

"And this—is a genuine mine?" he managed presently.

"In my opinion, it's a very wonderful prospect," said Hilliard, and he believed every word of that solemn statement.

Mr. Cullen folded the envelope, and then suddenly, as though too cautious to betray his profound absorption (which he had been betraying frankly for at least twenty minutes), tossed it back to Hilliard.

"When you've got a syndicate that'll let me in for say, thirty cents," he said, with elaborate humor, "just pass along the good word, will you?"

"I never try to do business with my friends," said Hilliard, with the most delicate touch of reproof.

"A good principle, too, but—" Mr. Cullen glanced at his watch. "It's dinner time, and more too. We'd better get along up to the house, or the first thing you know, we'll have servant troubles in our midst. And you didn't bring up that subject anyway—I brought it up." He took Angela's arm paternally. "Just as a matter of fact," he said, clearing his throat. "As a matter of fact, Mr. Hilliard—whereabouts did you say this property, is located?"

Shortly after dinner Angela, who had fled to the telephone in answer to a peremptory summons, came back complacent.

"Dinner at the Duran's on Sunday," she announced. "All three of us. Very quiet, Carol said. So I accepted—and that means you've got to stay with us two days more anyway, Mr. Hilliard. Do you mind very much?"

"Mind!" Hilliard had risen half out of his chair. His tremendous yearning to see Carol again, and his violent reaction at the prospect, had greatly influenced his voice, which was strident, explosive. The Cullens were laughing aloud at his confusion.

"He's blushing!" crowed Angela. "Look at him! Look at him!"

Indeed, he was crimson to the temples. Sunday—forty-eight hours! How he had spurned her!—and how he had suffered from that moment until now! To see her again . . . merely to see her! Business was business, and the farce must go on; no matter what else happened, he must hew out his success; he had ceased to love her, and he had come prepared for guerilla warfare . . . but to see her again! To hear her voice! To watch that smile of hers, and remember the tears she had shed for Dicky Morgan!

Sunday—forty-eight hours!

The Cullens were still laughing at him, and in Angela's soprano there was a note of feminine resentment but Hilliard's ears were suddenly stone deaf.

(TO BE CONTINUED)

Mrs. Bessie Williamson left this morning for New Washington for a few days' visit with her son, Oren Williamson, who is spending the winter with his grandfather at that place.

Mrs. Emma Wiethoff and Miss Katie Hodapp spent Tuesday in Indianapolis.

The Velvet tin is twice as big as shown here

"No Rheumatics" is a Mighty Poor Reason for Wearing a Wooden Leg

NO sting or hot burnin' is a mighty weak-kneed recommendation for tobacco. But when tobacco is mild and cool, and yet as full of "fun" as a barrel of monkeys—well, that's another story—that's Velvet.

And 'cause why?

'Cause Velvet is brought up—not jerked up by the hair. It's raised as carefully as a favorite child. It's cured in the big fresh air. And it mellows away for two years in wooden hogsheads 'til it's smooth and rich as cream. The wonder would be if Velvet wasn't a whacking good pipe smoke.

"Let Nature mellow yo' tobacco an' that tobacco will shore mellow yo' nature," says Velvet Joe. And he's pretty nearly right.

NATURE-AGEING in the wood does more to make tobacco friendly than any camouflage you can cover it with—and don't you forget it. See, taste, smell, feel the "real tobaccoconess" in Velvet. Why, you can almost hear it. Velvet's the tobacco you can judge with your eyes wide open and specs on.

There's a whole lot in Nature's way of making good tobacco better. And it's all in Velvet.

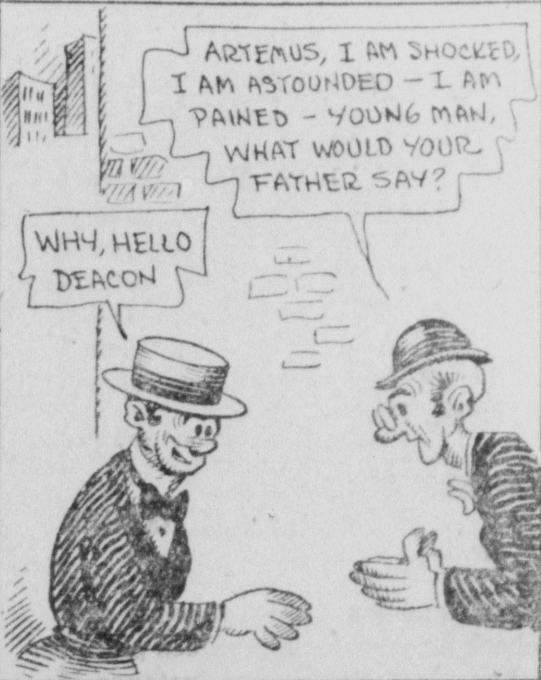

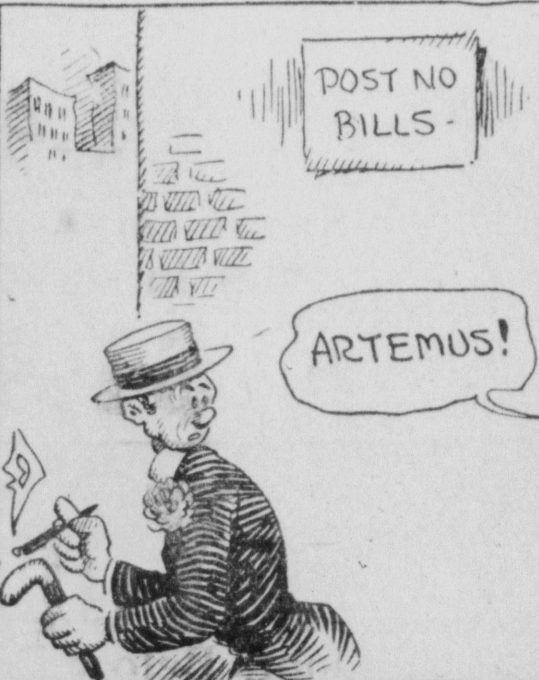

Here's to a full pipe and a friendly one.

## A SEYMOUR INTERVIEW

Mrs. Stewart Tells Her Experience.

The following brief account of an interview with a Seymour woman three years ago, and its sequel, will be read with keen interest by every citizen.

Mrs. Bruce H. Stewart, 41 Booth St., Seymour, says: "I have used Doan's Kidney Pills with benefit, and I gladly recommend them. I had dull, nagging pains across the small of my back and at times I could hardly straighten up. I tired easily, had dizzy headaches, and the action of my kidneys annoyed me, being irregular. I used Doan's Kidney Pills, which I got at Loertz's Drug Store and they relieved the backaches and other symptoms of kidney trouble." (The above statement was given Dec. 14, 1915.)

On July 22, 1919 Mrs. Stewart said: "I have the same good opinion of Doan's Kidney Pills now as I had when I endorsed them several years ago. They have never failed to do all that is claimed for them." 60c. at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

NEW ASSESSMENT  
FORMS ARE ISSUED  
(Continued from first page)

In this question taxing officials saw a check on inconsistent values placed on household good. For instance if the insurance policy is large and the

household goods listed low, taxing officials will probably be justified in believing the property has not been assessed at its true cash value as is provided by the law.

In other respects, the form is practically the same as the old form. The most radical change is in the manner of listing personal property. Some articles of personal property, such as pianos, talking machines and sewing

machines, were always listed separately, but the new form provides for the listing of every item of furniture.

The farmer is also hit by the new form, in that all of his farm implements must be listed separately and a value placed on each item. The new form also provides a space for enumerating a man's debt in claiming credit for deductions.
